**Reference – Mr. Marty Bellerose**

To Whom it May Concern,

I have known Marty Bellerose professionally for the past 5 years. First, in my capacity as Director of Merchandising and Marketing for A&B Sound, where Marty was General Manager, and secondly, in my capacity as Vice President for Visions Electronics, where Marty was Regional Manager.

Marty was constantly thrust into challenging roles, where he performed exceptionally. It would be an understatement to suggest that Marty succeeded where others failed. His tremendous energy, unfailing sense of leadership and his boundless energy made him a substantial asset to both of those organizations. Marty is a born leader, bottom line driven, and will rise to any challenge.

I wish him the best of fortune in his career goals, and any company that is fortunate enough to land him would be well served.

**Kind Regards**
